You know what bullying is, you saw it at school. Someone intimidating, offending, threatening or humiliating someone else.

Bullying doesn’t just happen at school though. It can happen in your workplace. Bullying at work can be hard to deal with, especially if your boss or a co-worker is bullying you.

If you’re being bullied at work, or one of your friends is, don’t put up with it! You have a lot of options. Start by getting more information from worksafe.qld.gov.au and talking to a workmate, parent or teacher that you trust.

Bullying is not on. Especially at work.
