## Medical table of costs Schedule of fees

### Rules for use

This document outlines the fees payable by workers' compensation insurers for medical service delivery to workers' compensation claimants in Queensland.

When invoicing for medical services, medical practitioners are expected to adhere to the MBS rules unless otherwise specified by WorkCover Queensland ('WorkCover') in this publication or the insurers' medical policies. WorkCover adopts the Medicare Benefits Schedule (MBS) items, explanations, definitions, rules and conditions for services provided by medical practitioners.

Fees in this schedule are payable **only** to medical practitioners who meet the provider eligibility criteria outlined in the current MBS.

### Multiple Operation Rule

The Fees for two or more operations, other than amputations, performed on a patient on the one occasion should be calculated using the following rules:

For surgical procedures (other than orthopaedic operations set out in MBS Group T8, subgroup 15 and Spinal Surgery in Group T8, subgroup 17):

- 100 per cent for the item with the greatest WorkCover fee; plus 50 per cent for the item with the next greatest WorkCover fee; plus 25 per cent for each other item.

For all orthopaedic procedures, except where the rules outlined in the notes for treatment of dislocations and fractures override, and for Spinal Surgery procedures:

- 100 per cent for the item with the greatest WorkCover fee; plus 75 per cent of each other item.

Where a medical practitioner performs both surgical and orthopaedic services on the one occasion, each rule applies in its entirety to the relevant items. This will result in two items with fees at 100%.

### Fractures and Dislocations

For the treatment of dislocations and fractures, the fees for two or more operations performed on a patient on the one occasion should be calculated using the following rules:

- For multiple dislocations or fractures requiring an operative or manipulative procedure, the fee for each dislocation or fracture shall be 100% of the WorkCover fee.
- For multiple dislocations or fractures where the second or subsequent conditions do not require operative or manipulative treatment, the fee for the second and each subsequent procedure shall be 75% of the WorkCover fee.
- When dislocations and fractures are associated with a compound (open) wound, an additional fee of 50% of the dislocation or fracture fee shall apply. The additional 50% applies only to the dislocation or fracture fee and does not apply to the fees for any other procedures that may be performed during the surgery.
- Except where otherwise specified by WorkCover, the fee for a fracture-dislocation shall be the fee for the fracture or dislocation, whichever is the greater, plus 50% of the WorkCover fee for the lesser procedure.

\* See Appendix A for derived fee descriptions

**Assistance at Operations**

A flat 20% surgical assistant's fee is payable when a surgical assistant is employed for Therapeutic Procedures Category 3,

- Subgroup 14 (Hand Surgery),
- Subgroup 15 (Orthopaedic) and,
- Subgroup 17 (Spinal Surgery) of the Medical Benefits Schedule (MBS).
- This should only be charged when clinically indicated. "The predominant consideration when using an assistant is patient safety, quality of care and overall efficiency." (AMA List of Medical Services and Fees 2018, p.14).
- Assistance at Operations is defined in MBS Note TN.9.1

**Aftercare**

All conditions detailed in the explanatory notes of the Medicare Benefits Schedule apply when treating injured workers. This includes the conditions surrounding any billing for routine post-operative care which is considered to be inclusive of the operation provided. If a patient requires additional services which are considered to be 'not normal aftercare' (NNAC), then the account should be endorsed with NNAC to enable separate payment for those services.

**Other Services**

Dental, nursing and allied health services for compensable injuries are covered under the relevant table of costs for those services.

**Evidence based recommendations**

WorkCover support the recommendations published by Choosing Wisely Australia and developed by Australia's peak colleges, societies and associations: <http://www.choosingwisely.org.au/recommendations>

This includes the recent joint publication from RACP and AFOEM regarding low value clinical practices, specifically:

- Do not certify a patient as totally unfit for work unless the work absence is clinically necessary and the patient is unfit for suitable alternative or restricted duties.
- Do not order X-rays or other imaging for acute nonspecific low back pain, unless there are red flags or other clinical reasons to suspect serious spinal pathology
- Do not prescribe opiates for the treatment of acute or chronic pain without assessing the patient's clinical condition, potential side effects, alternative analgesic options, work status, and capacity to perform safety critical activities such as driving a motor vehicle
