Introduction

This table of costs commences 1 July 2018.

This table of costs sets out the costs applicable for the treatment of workers under the workers' compensation statutory scheme as public patients in Queensland public hospitals. This table of costs is a comprehensive table of costs for **all** public health services and includes the Public hospitalisation table of costs published in the Industrial Gazette.

This table of costs applies only to the costs of the services provided to:

- A worker who is discharged from a public hospital (an inpatient) on or after 1 July 2018; or
- A worker who receives treatment at a public hospital emergency department on or after 1 July 2018; or
- A worker who receives treatment at a public hospital out-patient facility on or after 1 July 2018.

This table of costs outlines the procedures, conditions and fees for the delivery of public hospital services in Queensland public hospital facilities, for medical and allied health services to workers' compensation claimants.

This table of costs applies only to workers' compensation claimants receiving treatment in the public hospital sector as a public patient under the care of a public hospital doctor.

This table of costs excludes claimants under the statutory workers' compensation system electing to be treated as private patients and all workers' compensation common law claimants. Private patient fees for statutory claimants are documented in the Queensland Health Fees and Charges Register and can be found at: <https://www.health.qld.gov.au/directives/html/a.asp#f>

The common law only patients are charged under compensable third party fees when treated in the public hospital sector.

The table of costs is structured to promote the provision of quality, timely and relevant treatment in the management of injured workers. In the majority of cases, the rehabilitation goal is for the worker to return to work. In situations where the injury prevents the worker returning to work, rehabilitation must focus on maximising functional independence.

Working together

Insurers are committed to working with the Hospital & Health Services. If there is an issue in dispute, a Hospital & Health Service should contact the insurer to discuss an appropriate resolution. WorkCover Queensland offers each Hospital & Health Service a dedicated relationship manager for resolution of any issues.

An insurer's liability for services

The payment for services outlined in this document is subject to the following condition that the worker's compensation claim for the injury or condition being treated must be allowed by the Queensland workers' compensation insurer; i.e. WorkCover Queensland or the self-insurer, in accordance with the legislation. A list of insurers is available at: <https://www.worksafe.qld.gov.au/insurance/find-a-self-insurer>.

The insurer's liability is subject to the *Workers' Compensation and Rehabilitation Act 2003*. In all instances, the insurer requires the worker to have a current Work capacity certificate – workers' compensation to cover the period of the services provided. If there is no certificate, the insurer has no liability for the costs of treatment. If the worker does not have a certificate upon presentation to a public facility, a certificate may be issued by an emergency department or public hospital during the course of the treatment, or upon discharge.

Due to the diversity of medical services and rehabilitation program content, there may be other expenses which are not covered in this document. These expenses are to be negotiated with the Insurer prior to the delivery of such services.

The following definitions apply -

“public hospital” means a hospital to which a worker is admitted as a public patient.

“public patient” means a patient who is not a private patient.

“**private hospital**” means a hospital to which a worker is admitted as a private patient.

“**private patient**” means a worker who is a patient of a private doctor at a hospital that is not a contracted hospital. The worker has elected to be treated as a private patient by a doctor of their choice.

An “**inpatient in a public hospital**” is a public patient admitted at a public hospital and includes admission as a public patient to a Mater Misericordiae Public Hospital or transfer to contracted hospital.

An “**out-patient in a public hospital**” is a public patient who is not admitted to a public hospital and receives treatment as an outpatient. The patient may have been an inpatient previously and is now receiving follow-up treatment as an outpatient.

“**hospital**” includes a day hospital.

“**hospitalisation**” of a worker means the admission of the worker in a private hospital or public hospital for medical treatment for the worker’s injury.

“**elective hospitalisation**” means hospitalisation involving treatment or a procedure decided on by a worker or the worker’s doctor, that is of advantage to the worker, but is not fundamental in the treatment of the worker’s injury.

An “**emergency department**” provides accident and emergency services in a public hospital. Often a patient of a public hospital may receive emergency department treatment prior to being admitted as an inpatient.

“**contracted hospital**” means a hospital that provides public health services to a patient under a contractual arrangement with the State, but does not include-

- (a) a public sector hospital under the Health Services Act 1991; or
- (b) a Mater Misericordiae Public Hospital.

In some situations, Hospital & Health Services will make arrangements with private hospitals to provide services for and on behalf of Hospital & Health Services. These services will be billed by Hospital & Health Services under this table of costs.

Extent of insurer’s liability where there is an at fault driver

Under section 12(4) of the *Motor Accident Insurance Act 1994* a levy is paid to cover the cost of providing public hospital services and emergency services for the people who are injured in motor vehicle accidents and use public hospital services and emergency services as a result of their injuries and are claimants or potential claimant under the compulsory third party (CTP) insurance scheme. The workers’ compensation insurer can refuse payment of an invoice and notify the Hospital & Health Services that the invoice is rejected based on the fact that there is an at fault driver and it is covered under the *Motor Accident Insurance Act 1994*.

Extent of insurer’s liability for artificial prosthesis (such as limb, arm or hand prosthetics)

For the provision of any artificial prosthesis, approval must be sought from the insurer prior to the prescription and fitting of the prosthesis.

Extent of insurer’s liability for hospitalisation in a public hospital

For non-elective hospitalisation an insurer will be liable for the cost of public hospitalisation for not more than 4 days. After this time, an insurer will be liable if the insurer considers the non-elective hospitalisation is reasonable having regard to the worker’s injury. In determining what is reasonable, an insurer must have regard to the medical determination made by the worker’s treating medical practitioner.

It is recognised that for non-elective hospitalisation, Hospital & Health Services will provide services, in many cases before the claimant has made a claim. Accordingly, insurers will be making a retrospective assessment of the reasonableness of a stay of more than 4 days.

An insurer is liable for costs of elective hospitalisation to the extent it is agreed by the insurer under arrangements entered into between the insurer and the worker (or someone for the worker) *before* the public hospitalisation. This includes sub and non-acute care fees.

An insurer’s liability for public hospitalisation includes the provision of the facility as well as medical treatment provided at the hospital.

The insurer must pay the cost of public hospitalisation, whether the public hospitalisation is provided at one time or at different times.

Length of stay

The length of stay is calculated by subtracting the date the patient is admitted from the date of separation. All leave days*, including the day the patient went on leave are excluded. A day is measured from midnight to 2359 hours and includes full and partial days. A patient admitted and separated on the same day (a "same day" patient) is allocated a length of stay of one day.

*A leave day is where a patient is away from a hospital overnight, eg to have a meal with family at Christmas.

Discharge Summary Reports

For an inpatient of a public hospital a discharge summary report is included in the cost of hospitalisation.

All requests for reports from Public Hospitals are to be sent through to the hospital Information Access Account.

Other reports and communications

Other insurer requested reports or communications are subject to the WorkCover Queensland tables of costs for medical and allied health services.

All requests for reports from Public Hospitals are to be sent through to the hospital Information Access Account.

Medical records

Insurer requested medical records will attract a fee from the public hospital. The fee will be based on the following:

- Application fee: \$71.00
- Processing fee: \$10.00 per 15 minutes
- Copies of x-ray (film): \$24.00
- Copies of photograph: \$11.00
- Copies of videotape: \$28.00
- Copy of audiotape: \$11.00
- Copy of CD-ROM: \$28.00
- PACS-Initial imaging study on CD media: \$114.00
- PACS-Second and subsequent imaging study on CD media (per study): \$11.00
- Copying charge of \$0.40 per page (A4 black and white only).

These fees are GST exclusive.

Worker's Authority

If a hospital requires a signed authority from the worker to permit the release of medical records, the hospital may request an authority from the insurer. The insurer is permitted to provide the signature by email or facsimile.

Timeframes

A doctor attending a worker who has sustained an injury must give the insurer a detailed report on the worker's condition within 10 days after receiving the insurer's request to do so*. The fee payable to the doctor for the report is an amount accepted by the insurer to be reasonable, having regard to the relevant table of costs (please refer to the Supplementary services for General Practitioners and Specialists).

*Refer s86(3) of the Workers' Compensation and Rehabilitation Regulation 2003.

Fees

Queensland Department of Health charges are established on a cost recovery basis and are based on the Independent Hospital Pricing Authority (IHPA) cost data and published price increase.

Queensland Department of Health provides data to the national data set and the yearly increase is applied to the current prices. WorkCover Queensland will review any adjustments according to the IHPA report and re-gazette a table of costs when appropriate.

The *Public health services table of costs* outlines the prices an insurer can expect to be charged for services provided to injured workers. Insurers are also able to negotiate a fixed annual payment / agreement with Queensland Department of Health based on their estimated hospital costs separate to this Table of Costs if they wish.

Queensland Department of Health operates a large number of hospitals that are grouped according to the level of complexity and intensity of services offered. These hospitals and codes are detailed on page 16.

Emergency department services

Emergency department charges for public workers' compensation patients include but are not limited to, the following services:

- Medical care provided by public hospital doctors
- Nursing care
- Pathology and imaging
- Theatre use, theatre consumables, in-theatre care and surgical implants
- Limited pharmaceutical and dressings may be included
- Allied health services
- Aids and appliances including those necessary for effective discharge-these may be loaned or given to the patient, depending on the facility
- Clerical and administrative support
- Discharge summary report, if available

Under section 213(4) of the *Workers' Compensation and Rehabilitation Act 2003*, the Work capacity certificate – workers' compensation must be free of charge. As such, medical certification is provided at no additional charge.

Emergency department fees and item numbers

The following definitions apply for emergency department services-

“Admitted” patients are those that are admitted to the hospital directly from the emergency department, including those admitted as same day patients. Admission follows a clinical decision based on specified criteria that requires same-day or overnight care or treatment. The admission/transfer can be to a public hospital or the patient's home (for hospital-in-the-home patients).

“Did not wait” means the patient was triaged and registered however the patient did not wait to complete full treatment until clinical or administrative discharge occurred.

“Died” means the patient was “dead on arrival” at the emergency department, or died whilst still considered to be under the care of the emergency department and was not admitted to the hospital. The fee for this service includes preparation of the body and transfer to the morgue.

“Discharged” patients are those discharged from the emergency department to home or to another facility of residence, other than an acute facility in a public hospital.

“Transferred” patients are those sent from the emergency department to any other acute facility (public, private, interstate or overseas) for continuation of their admitted care and management.

“Triage” means the assigning of degrees of urgency to decide the order of treatment. The triage category indicates the urgency of the condition and is defined according to national standards with triage 1 being the most urgent and triage 5 being the least urgent. (1=Resuscitation, 5=Non-urgent).

Emergency department fees

The public hospitals that are able to bill for emergency department services are noted in the below table:

Atherton Hospital	Gympie Hospital	Redcliffe Hospital
Ayr Hospital	Hervey Bay Hospital	Redland Hospital
Beaudesert Hospital	Ingham Hospital	Robina Hospital
Biloela Hospital	Innisfail Hospital	Rockhampton Base Hospital
Blackwater Hospital	Ipswich Hospital	Roma Hospital
Boonah Hospital	Kingaroy Hospital	Royal Brisbane & Women's Hospital
Bowen Hospital	Lady Cilento Children's Hospital	Sarina Hospital
Bundaberg Hospital	Laidley Hospital	St George Hospital
Caboolture Hospital	Logan Hospital	Stanthorpe Hospital
Cairns Base Hospital	Longreach Hospital	Sunshine Coast University Hospital
Caloundra Hospital	Maleny Hospital	The Prince Charles Hospital
Charleville Hospital	Mackay Base Hospital	The Townsville Hospital
Charters Towers Hospital	Mareeba District Hospital	Thursday Island Hospital
Cherbourg Hospital	Maryborough Hospital	Toowoomba Hospital
Cloncurry Hospital	Mater Misericordiae Public Adult Hospital	Tully Hospital
Dalby Hospital	Moranbah Hospital	Warwick Hospital
Dysart Hospital	Mossman Hospital	Woorabinda Hospital
Emerald Hospital	Mount Isa Hospital	Wynnum Hospital
Gatton Hospital	Nambour General Hospital	Yarrabah (Gurriny Yealamucka) Hospital
Gladstone Hospital	Princess Alexandra Hospital	Yeppoon (Capricorn Coast) Hospital
Gold Coast University Hospital	Proserpine Hospital	
Goondiwindi Hospital	QEII Jubilee Hospital	

Non-listed hospitals providing emergency treatment

From 1 July 2008, hospitals that are not listed above and provide emergency treatment should charge according to the WorkCover Queensland *Medical items schedule of fees*.

Emergency department fees include radiology, pathology and pharmacy costs linked to the emergency department attendance. The fees and item number codes are shown below.

WorkCover Emergency Department Item No. Code	Service Type	Max Fee Excl. GST
99810	Admitted/transferred triage 1	\$2,769.00
99811	Admitted/transferred triage 2	\$1,738.00
99812	Admitted/transferred triage 3	\$1,240.00
99813	Admitted/transferred triage 4	\$907.00
99814	Admitted/transferred triage 5	\$671.00
99815	Died	\$1,801.00
99816	Discharged triage 1	\$1,766.00
99817	Discharged triage 2	\$1,018.00
99818	Discharged triage 3	\$710.00
99819	Discharged triage 4	\$464.00
99820	Discharged triage 5	\$317.00
99821	Did Not Wait	\$229.00

Emergency department item numbers

The WorkCover item number for emergency department services is based on two components:

- the Emergency Department Item No. Code (listed in the table above); and
- the corresponding hospital code (see page 16)

WorkCover Emergency Department Item No. Code + Hospital Code

For example:

- A discharge-triage 3 (Emergency Department Item No. Code 99818) from the Princess Alexandra Hospital Emergency Department (Hospital code 011) would have an item number of **99818011**.
- A discharge-triage 3 from the Gold Coast University Hospital (Hospital code 936) would have an item number of **99818936**.
- An admission-triage 5 (Emergency Department Item No Code 99814) to the Gold Coast University Hospital would have an item number of **99814936**.

Inpatient services

Inpatient services are also published in the Industrial Gazette as the Public hospitalisation table of costs. For convenience the costs for inpatients are included in this comprehensive Public health table of costs.

Inpatient charges for public workers' compensation patients include the following services:

- appropriate accommodation; shared ward, or single room if deemed clinically necessary hospital hotel services, eg. meals
- medical care provided by public hospital doctors
- nursing care
- pathology and imaging
- pre-operative and post-operative care whilst an inpatient in hospital
- theatre use, theatre consumables, in-theatre care and surgical implants
- all pharmaceutical and dressings. Discharge pharmaceuticals must be issued with a prescription and patient directed to obtain the medication from a private pharmacy not the public hospital pharmacy. Both the insurer and hospital should ensure workers are aware of this requirement.
- If the public hospital pharmacy inadvertently dispenses medication and raises charges on the patient for discharge medication, the patient can be reimbursed by the insurer
- allied health services
- discharge planning services
- aids and appliances including those necessary for effective discharge- these may be loaned or given to the patient, depending on the facility
- clerical and administrative support
- discharge summary report

Under section 213(4) of the *Workers' Compensation and Rehabilitation Act 2003*, the Work capacity certificate – workers' compensation must be free of charge. As such, medical certification is provided at no additional charge.

Inpatient charges for public workers' compensation patients do not include emergency department charges. These are raised separately by the emergency department (see Emergency Departments on pages 5-7)

Inpatient fee types

Hospital & Health Services adopts a case mix-based pricing model for most acute public inpatients and a specified bed day fee for other types of public patients.

Admitted services are charged according to the hospital category and the patient diagnosis. There are three categories of inpatient fee types:

1. Small Hospitals (Hospital Group X) – handle acute, sub-acute and non-acute
2. Sub and Non-Acute (Hospital Groups A, B, P, T)
3. Acute (Hospital Groups A, B, P, T)
4. Hospital in the Home (HITH)

Small hospitals

Small hospitals - Group X hospital fees

These are smaller facilities in rural and remote areas. Treatment provided in these facilities is costed on a per day basis irrespective of the diagnosis category or the type of treatment. For all admissions the invoice will multiply the number of days by the per day cost for that day. This applies to acute, sub-acute and non-acute types of care.

Small Hospital Item No. Code	Description	Max Fee Excl. GST
99800	Small Hospital – Group X	\$2,239 per day.

NB. Because small hospitals handle acute, sub-acute and non-acute types of care, the item number is not based on a DRG code.

Small hospitals - Group X hospital item numbers

The WorkCover item number for small hospitals is based on two components:

- the Small Hospital Item No Code (listed in the table above); and
- the corresponding hospital code (see page 16)

Small Hospital Item No. Code + WorkCover Hospital Code

For example:

- Treatment provided at the Biloela Hospital (Hospital code 133) would have an item number of **99800133**.
- Treatment provided at Tully Hospital (Hospital code 227) would have an item number of **99800227**.

Sub and non-acute care

Sub and non-acute care fees – Hospital groups A, B, P, T

Some types of treatment that a patient may receive are not considered “acute”. These types of care include rehabilitation, palliative care and maintenance care. The following fees and item numbers are for sub and non-acute care provided by hospitals in categories A, B, P and T. The fee is derived by multiplying the worker’s length of stay by the per day rate for the relevant type of care.

Sub and Non-Acute Item No. Code	Description	Max Fee Excl. GST
99801	Maintenance	\$1,868 per day
99802	Rehabilitation – Same Day	\$673 per day
99803	Rehabilitation - Overnight	\$2,062 per day
99804	Palliative	\$2,322 per day

NB. Charges for like services in Hospital Groups A, B, P & T are the same.

Sub and non-acute care item numbers – Hospital groups A, B, P, T

The WorkCover item numbers for sub and non-acute care are based on two components:

- the Sub and Non-Acute Care Item No Code (listed in the table above); and
- the corresponding hospital code (see page 16)

Sub and Non-Acute Item No. Code + WorkCover Hospital Code

For example:

- Rehabilitation-Same Day (Sub and Non-Acute Item No Code 99802) provided at the Princess Alexandra Hospital (Hospital code 011) would have an item number of **99802011**.
- Rehabilitation-Same Day provided at the Gold Coast University Hospital (Hospital code 936) would have an item number of **99802936**.
- Palliative care (Sub and Non-Acute Item No Code 99804) provided at the Gold Coast University Hospital would have an item number of **99804936**.

Acute care

Acute care fees - Hospital groups A, B, P, T

Patients receiving acute care in Hospital Groups A, B, P, T have their fees calculated under a case- mix basis. This type of fee relates specifically to the condition for which the patient was treated and for how long they were treated. The case-mix fee for public hospitalisation will be determined by three key elements: -

- Hospitalisation category – with its relevant base rate;
- Diagnosis category (DRG code) – the type of condition as described by the Diagnosis-Related Group with its applicable cost weighting; and
- Length of stay (LOS) – the worker’s length of stay in hospital compared and adjusted to the average for that DRG via “trim points”.

The average length of stay and “trim points” have been calculated for each diagnosis category (DRG code). The average length of stay and cost weighting may vary between hospital groups.

Base Rates

The base rate figure takes into account the variances in infrastructure between hospital groups.

Hospital Group	Base Rate
Group A	\$7,359
Group B & P	\$7,338
Group T	\$7,386

Long stay per day rates

The long stay per day rates take into account the variances in infrastructure between hospital groups.

Hospital Group	Type	Long Stay Per Day Rates
Group A	Medical	\$1,629
Group A	Surgical	\$2,122
Group A	Other	\$1,650
Group B	Medical	\$1,610
Group B	Surgical	\$2,117
Group B	Other	\$1,340
Group P	Medical	\$1,816
Group P	Surgical	\$2,374
Group P	Other	\$1,943
Group T	Medical	\$1,557
Group T	Surgical	\$2,045
Group T	Other	\$1,294

Extra long stay per day rates

The extra long stay per day rates take into account the variances in infrastructure between hospital groups.

Hospital Group	Extra Long Stay Per Day Rates
Group A	\$740
Group B & P	\$747
Group T	\$610

Trim points

The trim points are calculated as follows:

- Low trim point** – the point where it has been calculated ten percent of all stays fall below. For an individual DRG, at least ninety percent of the patients would have a length of stay greater than or equal to the low trim point.

NB. The distribution for most DRGs is so skewed that the low trim point is usually just one day. For these DRGs there will be no short stay outliers. There are 505 (of 665) DRGs where the low trim point is one day.
- High trim point** – the point where it has been calculated ninety-five percent of all stays fall below. For an individual DRG, it means that ninety-five percent of the patients will have a length of stay less than or equal to the high trim point.
- Extra high trim point** – the point where it has been calculated ninety-eight percent of all stays fall below. For an individual DRG, it means that ninety-eight percent of the patients will have a length of stay less than or equal to the extra high trim point.

Formulas

Depending on where the length of stay falls in relation to the trim points, there are four different formulas which may be used to calculate the case mix fee.

1. **Inlier** – length of stay falls between the low and high trim points (inclusive)

$$\text{Fee} = \text{DRG cost weight} \times \text{Base rate}$$

2. **Short stay outlier** – length of stay falls below the low trim point

Fee = the **lesser** of:

Inlier fee

OR

$$\left(\frac{\text{Actual length of stay}}{\text{Point}} \right) / 75\% \times \text{Inlier Fee Low Trim Point}$$

3. **Long stay outlier** – length of stay is above the high trim point and less than or equal to the extra high trim point. A long stay per day rate is applied to each DRG type (medical, surgical or other in each hospital category A, B, P and T).

$$\text{Fee} = \text{Inlier Fee} + (\text{Actual length of stay} - \text{High Trim Point}) \times \text{Long Stay Per Day Rate}$$

4. **Extra long stay outlier** – length of stay is anywhere above the extra high trim point

$$\text{Fee} = \text{Inlier Fee}$$

$$+ (\text{Extra High Trim Point} - \text{High Trim Point}) \times \text{Long Stay Per Day Rate}$$

$$+ (\text{Actual Length of Stay} - \text{Extra High Trim Point}) \times \text{Extra Long Stay Per Day Rate}$$

Fee Example:

1. Mary suffers severe burns at work and is admitted to the Royal Brisbane Women's Hospital. The diagnosis category is Y61Z, with a length of stay of 3 days. The insurer should receive an invoice from Hospital & Health Services which would show an item number of 99650201* with a fee of \$6,420.

The following is an extract from the Hospital & Health Service Public Hospital Cost Benchmarks for DRG code Y61Z.

Group A Hospitals

AR-DRG 7	Description	Cost weight	Ave LOS	Low trim point	High trim point	Extra high trim point	Inlier payment	Long stay per day public	Extra long stay per day
Y61Z	Severe Burns	0.9029	3.6	1	10	15	\$6,420	\$1,574	\$715

Inlier formula: **Fee = DRG cost weight x Base rate**

$$= 0.9029 \times \$7,110 \text{ (Group A Hospital Base rate)}$$

$$= \$6,420$$

*For more information on how item numbers are established, see page 8.

2. If Mary had required 13 days hospitalisation, this would be classified as a “Long Stay Outlier”. The fee for this stay is calculated by using the inlier cost benchmark to cover the stay until the “high trim point” and a “long stay” per day rate applies for the days between the “high” and “extra high” trim points- which in this example is one day at the long stay per day rate. Therefore the fee would be:

Fee = Inlier Fee + (Actual length of stay – High Trim Point) x Long Stay Per Day Rate

= \$6,420 (Inlier Fee) + ((13-10) x \$1,574).

= \$6,420 + \$4,772

= \$11,142

Alternatively, if the insurer had referred to the table it would have been able to add the Inlier fee and the Long Stay Outlier fee (for one day) and got the same result.

\$6,420 (Inlier payment) + (\$1,574* 3)^{***} (Long stay per day public) = \$11,142

^{***}The DRG code Y61Z has a type classification of “Medical” - refer to the WorkCover DRG Item Number Codes list on pages 17-22. Refer to the Long Stay Per Day Rates table on page 11 for the rate.

Acute care fee verification - Hospital groups A, B, P, T

The insurer may verify individual charges for acute care on the Hospital & Health Service invoice by using WorkCover’s Queensland Health Public Patient Acute Inpatient Cost Check. Please note that the verification calculator will not verify sub and non-acute care charges as these are per day rates as per page 8. (<https://www.worksafe.qld.gov.au/service-providers/medical-fees>)

Acute care item numbers - Hospital groups A, B, P, T

The WorkCover item number for acute care is based on two components:

- The Australian Refined-Diagnosis Related Group (DRG) classification code; and
- The corresponding hospital code (see page 16).

Each **DRG code** has been allocated a WorkCover DRG Item Number Code (for full list see pages 18-22).

For example:

DRG code	WorkCover DRG Item Number Code
G10B	99736
I02B	99312

The WorkCover item number for acute fees combines these two components:

WorkCover DRG Item Number Code + WorkCover Hospital Code

For example:

- A hernia procedure, DRG classification G10B (WorkCover DRG Item Number Code 99736) carried out at Gold Coast University Hospital, (WorkCover Hospital Code 936) would have an item number **99736936**.
- The same procedure carried out at Innisfail Hospital, (WorkCover Hospital Code 222) would have an item number **99736222**.
- A skin graft, DRG classification of I02B (WorkCover DRG Item Number Code 99312) carried out at Innisfail Hospital would have an item number **99312222**.

Hospital in the Home (HITH)

Hospital in the Home (HITH) is the provision of acute care to patients in the comfort of the person's own home or other suitable environment. Patients are regarded as hospital inpatients, and remain under the care of their hospital doctor. Care may be provided by a nurse, doctor and/or allied health professional. Additional home supports can be arranged as required. HITH is an alternative to a hospital inpatient stay. Patients can be offered this option by treating staff if the care type can be delivered safely at home. Research findings demonstrate that patients have improved outcomes and recovery at home with fewer complications such as infection. Participation in HITH is voluntary - patients and insurers must agree and approval be given to have the care provided at home.

WorkCover Item No	Description	Max Fee Excl. GST
99806	Hospital in the Home (HITH)	\$1,902.00

Hospital in the Home item numbers – Hospital groups A, B, P,T & X

The WorkCover item numbers for Hospital in the Home care are based on two components:

- The Hospital in the Home Item No Code (listed in the table above); and
- The corresponding hospital code (see page 16)

Hospital in the Home Item No. Code + WorkCover Hospital Code

For example:

- Hospital in the Home (HITH Item No Code 99806) provided by the Princess Alexandra Hospital (Hospital code 011) would have an item number of **99806011**.

Interfacility transfer costs and escort fee item number

This item is for transfer to and from hospital and can include one or more of the following – escort, paramedic, ambulance fees. This item does not cover transportation from the hospital to a patient's home.

WorkCover Item No	Description	Max Fee Excl. GST
99805000	Queensland Health Inter-facility Transfer/Escort Cost	As charged

NB. The Workers' Compensation Regulator's QAS grant covers pre-hospital care but *does not* cover inter-facility transfers.

Outpatients

Providers in Hospital & Health Services' outpatient clinics are to utilise the WorkCover Tables of Costs for medical practitioners and allied health providers, relevant to the service provided:

- Medical items schedule of fees
- Supplementary services table of costs (General Practitioners)
- Supplementary services table of costs (treating Specialists, Physicians and Psychiatrists)
- Nursing services
- Dental services
- Occupational therapy services
- Physiotherapy services
- Podiatry services
- Psychology services
- Speech pathology services

Hospital & Health Services do not provide chiropractic, exercise physiology or osteopathy services. These tables of costs may be obtained from the website worksafe.qld.gov.au under Service providers > Medical or Allied Health Fees.

For any services not described under a table of costs, the provider should seek prior approval from the insurer.

For all presentations, a charge will be applied to each occasion of service. There may be occasions where multiple presentations will occur for one condition and on one day (e.g. a physiotherapy and psychology consultation on the same day). Each treatment will be charged individually.

Prior insurer approval may be required for more than one consultation with the same provider on the one day. Reference should be made to the relevant Table of Cost for further information.

Pharmaceuticals

Workers' compensation patients who require prescription medication must be issued with a prescription and directed to obtain the medication from a private pharmacy not the Public hospital pharmacy. Both the insurer and hospital should ensure workers are aware of this requirement. If the public hospital pharmacy inadvertently dispense medication and raises charges on the patient for outpatient medication, the patient can be reimbursed by the insurer.

Exemptions to the above – If a patient is prescribed a restricted medication only available through a hospital pharmacy (e.g. certain IV drugs or medications only available under a special access scheme) the hospital may claim these costs from the insurer.

Nursing services

Nurses who provide outpatient and emergency nurse services only should use items in the Nursing services table of costs.

Cast technicians/plaster orderlies

Cast technicians who provide outpatient services can charge for the consultation and resources required. Services that are provided in an emergency department or whilst the worker is an inpatient are not billable. Hospital & Health Services can only charge a cast technician fee if the treating technician holds a Certificate IV in Cast Technology - HLT41412.

WorkCover Item No	Description	Max Fee Excl. GST
99822000	Cast technician consultation	\$86.00
99823000	Cast technician incidentals	Short Arm – \$38.00
		Long Arm – \$78.00
		Short Leg – \$45.00
		Long Leg – \$135.00

The Queensland Hospital & Health Services invoice

WorkCover Queensland will only accept invoice information transmitted electronically through a CSV file transfer or through "Create Invoice Online" from Hospital & Health Services. Self-insurers will accept paper invoices.

For insurer payment, invoices raised by Hospital & Health Services must include the following information:

For admitted patient fees:

- (i) Hospital
- (ii) Hospital category
- (iii) Worker's name
- (iv) Date of birth
- (v) Worker's address
- (vi) Patient UR number
- (vii) Claim number (if known)
- (viii) Date of injury
- (ix) Employer
- (x) Employer address
- (xi) Insurer
- (xii) Admitted patient stay
 - Date of admission
 - Date discharged
 - Length of stay
- (xiii) Description
 - Australian Refined-Diagnosis Related Group (AR-DRG) Code
 - ICD-10-AM Diagnosis Code Description
 - ICD-10-AM Procedure Code Description
- (xiv) WorkCover item number/s detailed in the fee schedule
- (xv) Cost of treatment

For non-admitted patient fees:

- (i) Hospital
- (ii) Hospital category
- (iii) Worker's name
- (iv) Date of birth
- (v) Worker's address
- (vi) Patient UR number
- (vii) Claim number (if known)
- (viii) Date of injury
- (ix) Employer
- (x) Employer address
- (xi) Insurer
- (xii) Description of Outpatient or Emergency department treatment
 - Date
 - Clinic type attended
 - Injury details
- (xiii) WorkCover item number/s detailed in the fee schedule
- (xiv) Cost of treatment

Note:

Fees should be applied relating to when the service is performed not when the bill is generated. E.g. A bill sent in September 2016 for treatment which occurred on 15 June 2016 should use the fees applicable as at 15 June 2016.

However, if the treatment carries over two different fee periods (eg. if the fees increase during the period a worker is an inpatient) the invoice should be raised upon patient discharge. The fees should be calculated using the fees applicable as at the date of discharge.
