

Podiatry table of costs
Effective 1 July 2019

Service	Descriptor	Insurer prior approval required¹	Item number	Fee – GST not included²
Initial Consultation	First consultation with worker.	No	800028	\$86
Subsequent Consultation	Standard treatment consultation. Prior approval is required for services after the first subsequent consultation.	Yes	800029	\$77
Insoles	Plain - single. Prior insurer approval is required.	Yes	800039	\$35
Insoles	Plain - pair. Prior insurer approval is required.	Yes	800040	\$64
Insoles	Padded insole - single. Prior insurer approval is required.	Yes	800041	\$74
Insoles	Padded insole - pair. Prior insurer approval is required.	Yes	800042	\$141
Insoles	Balance Inlay - single custom. Prior insurer approval is required.	Yes	800043	\$181
Insoles	Balance Inlay - pair custom. Prior insurer approval is required.	Yes	800044	\$341
Insoles	Balance Inlay - Thermo non-cast single. Prior insurer approval is required.	Yes	800045	\$123
Insoles	Balance Inlay - Thermo non-cast pair. Prior insurer approval is required.	Yes	800046	\$198
Insoles	Soft tissue supplement - pair. Prior insurer approval is required.	Yes	800084	\$67
Insoles	Covers - plain. Prior insurer approval is required.	Yes	800283	\$36
Orthoses	Thermoplastic shell - Intrinsic fore/rearfoot post - single. Prior insurer approval is required.	Yes	800037	\$211

Orthoses	Thermoplastic shell - Intrinsic fore/rearfoot post - pair. Prior insurer approval is required.	Yes	800038	\$410
Orthoses	Extrinsic fore/rear foot post - single. Prior insurer approval is required.	Yes	800048	\$28
Orthoses	Extrinsic fore/rear foot post - pair. Prior insurer approval is required.	Yes	800232	\$53
Orthoses	Heel lift - single. Prior insurer approval is required.	Yes	800047	\$30
Cast	Negative impression- single. Prior insurer approval is required.	Yes	800049	\$83
Cast	Negative impression - pair. Prior insurer approval is required.	Yes	800050	\$116
Nail Removal	Nail removal under local anaesthetic. Prior insurer approval is required.	Yes	800284	\$183 ^ per hour
Independent Case Review	Independent examination and report of a worker (not by the treating therapist). To be provided only following a request from the insurer.	At the request of the insurer	800226	\$228 ^ per hour
Communication	Direct communication between treating practitioners and insurer, employer, insurer referred allied health practitioner and doctors to assist with faster and more effective rehabilitation and return to work for a worker. Excludes communication of a general administrative nature or with a worker. Must be more than 3 minutes and is to be billed in 10 minute increments. Consult list of exclusions before using.	No	300079	\$30 ^ per ten minute increment
Case Conference	Face-to-face or telephone communication involving the treating provider, insurer and one or more of the following: treating medical practitioner, specialist, employer or employee representative, worker, allied health providers or other.	Yes	300082	\$183 ^ per hour
Progress Report	A written report providing a brief summary of the worker's progress towards recovery and return to work.	At the request of the insurer	300086	\$61

Standard Report	A written report used for conveying relevant information about a worker's compensable injury where the case or treatment is not extremely complex or where responses to a limited number of questions have been requested by the insurer.	At the request of the insurer	300088	\$154
Comprehensive Report	A written report only used where the case and treatment is extremely complex. Hours to be negotiated with the insurer prior to providing the report.	At the request of the insurer	300090	\$183 ^ per hour
Travel - Treatment	Only paid where the provider is required to leave their normal place of practice to provide a service to a worker at their place of residence, rehabilitation facility, hospital or the workplace; for visits to multiple workers or facilities, divide the travel charge accordingly between workers assessed/treated at each location.	Yes	300092	\$134 ^ per hour
Copies of Patient Records relating to claim	Copies of patient records relating to the worker's compensation claim including file notes, results of relevant tests e.g. pathology, diagnostic imaging and reports from specialists. Paid at \$25 flat fee plus \$1 per page.	No	300093	\$25 plus \$1 per page
Incidental Expenses	Reasonable charges for incidental items the worker takes with them up to \$57.00 per claim without prior approval. Reasonable charges for supportive devices up to \$199.00 per claim without prior approval. Hire of equipment to be negotiated with insurer.	Yes	300094	Incidental - \$57 per claim Supportive - \$199 per claim
Gym and Pool Entry Fees	Entry fee to the gymnasium or pool for treatment or assessment. Prior approval required before providing service.	Yes	300228	Usual facility fee

Please read the item number descriptions contained in this document for service conditions and exclusions.

¹ Where prior approval is indicated the practitioner must seek approval from the insurer before providing services

² Rates do not include GST. Check with the Australian Taxation Office if GST should be included. See <https://www.ato.gov.au/Business/GST/In-detail/Your-industry/GST-and-health/>

³ If costs exceed pre-approved levels, or the hire equipment is required the practitioner must submit a *Request for incidental expenses, supportive devices or equipment hire* form detailing items and cost to the insurer available from www.worksafe.qld.gov.au

^ Hourly rates are to be charged pro-rata

Who can provide podiatry services to injured workers?

All podiatry services performed must be provided by a Podiatrist who has a current registration with the Podiatry Board of Australia.

Service conditions

Services provided to injured workers are subject to the following conditions:

- **Assessment** – after the initial consultation and up to one (1) subsequent consultation a Provider management plan must be provided to the insurer to advise of assessment outcome.
- **Provider management plan** – this form is available on the Workers' Compensation Regulator's website (www.worksafe.qld.gov.au) and is to be completed if treatment is required after any pre-approved sessions or any services where prior approval is required. An insurer may require the Provider management plan to be provided either verbally or in written format. (Check with each insurer as to their individual requirements). The insurer will not pay for the preparation or completion of a Provider management plan.
- **Approval for other services or sessions** – approval must be obtained for any service requiring prior approval from the insurer before commencing treatment.
- **Payment of treatment** – all fees payable are listed in the *Podiatry services table of costs*. For services not outlined in the table of costs, prior approval from the insurer is required.
- **Treatment period** – treatment will be deemed to have ended if there is no treatment for a period of two (2) calendar months. After this a Provider management plan needs to be submitted for further treatment to be provided. The worker must also obtain another referral.
- **End of treatment** – all payment for treatment ends where there is either no further medical certification, the presenting condition has been resolved, the insurer finalises/ceases the claim, the worker is not complying with treatment or the worker has achieved maximum function.
- **Change of provider** – the insurer will pay for another initial consultation by a new provider if the worker has changed providers (not within the same practice). The new provider will be required to submit a Provider management plan for further treatment outlining the number of sessions the worker has received previously.

Telehealth services

Telehealth services are only related to video consultations. Phone consultations are not covered under the current Table of Costs.

The following should be considered prior to delivering the service:

- Providers must consider the appropriateness of this mode of service delivery for each worker on a case-by-case basis i.e. the principles and considerations of good clinical care continue to be essential in telehealth services.
- Providers are responsible for delivering telehealth services in accordance with the principles of professional conduct and the relevant professional and practice guidelines to ensure that all care is taken to ensure the privacy, confidentiality, safety, appropriateness and effectiveness of the service.
- As with any consultation, it is important to provide sufficient information to enable workers to make informed decisions regarding their care.
- All telehealth services require prior approval from the insurer and must be consented to by all parties – the worker, provider and insurer.

For billing purposes telehealth services do not have specific item codes and should be invoiced in line with the current item codes and descriptors in each Table of Costs.

“Telehealth” must be noted in the comments section on any invoice submitted to the insurer when this service has been utilised.

Consultations (Item numbers 800028, 800029)

For an accepted claim, the insurer will pay the cost of an initial consultation and report when it has been requested by the treating medical practitioner or an accredited workplace/employer. The insurer will not pay for an initial and subsequent consultation on the same day unless in exceptional circumstances, as approved by the insurer.

Consultations may include the following elements:

- **Subjective (history) reporting** – consideration of clinical, medical and surgical history, footwear, occupational and lifestyle factors.
- **Objective (physical) assessment** – assessment of the injury site and determination of a diagnosis by means of palpation and the prescription of appropriate diagnostic imaging (if required). Assessment of motion studies, gait analysis, postural alignment evaluation or other relevant techniques by carrying out appropriate procedures and tests.
- **Assessment results (prognosis formulation)** – provide a provisional prognosis for treatment, limitations to function and progress for return to work.
- **Reassessment (subjective and objective)** – evaluate the physical progress of the worker using outcome measures for relevant, reliable and sensitive assessment. Compare against the baseline measures and

treatment goals. Identify factors compromising treatment outcomes. This includes physical palpation and the reviewing of diagnostic imaging to determine/confirm an accurate prognosis.

- **Treatment (intervention)** – formulate and discuss the treatment goals, progress and expected outcomes with the worker. Advise on footwear and home care including any exercise programs to be followed. Commence and trial any physical therapy including, but not limited to, padding, strapping, wedging, casts, insoles and orthoses or modifications in line with progress or otherwise identified.
- **Clinical records** – record information in the worker’s clinical records, including the purpose and results of procedures and tests.
- **Communication (with the referrer)** – communicate any relevant information for the worker’s rehabilitation to insurer. Acknowledge referral and liaise with the treating medical practitioner about treatment.

Insoles (Item numbers 800039, 800040, 800041, 800042, 800043, 800044, 800046, 800084, 800283)

The objectives of this service are to:

- provide cushioning and padding underfoot to:
- absorb shock in gait
- redistribute load from a focal point of increased pressure
- relieve foot or lower limb pain and symptoms
- prevent or reduce the rate of cutaneous hypertrophy and/or soft tissue inflammation or other localised pathology
- ensure there is no new foot pain, symptoms or pathology created by the orthosis
- ensure the worker understands the reason for prescription of the orthosis
- ensure the worker agrees to adjunctive therapies including footwear changes and prescribed exercises
- where pressure relief is the objective, to modify the forces applied to a selected area of the foot by increasing the forces applied to an alternative area of the foot

Orthoses – thermoplastic shell (Item codes 800037, 800038, 800047, 800048, 800232)

The objectives of this service are to:

- relieve foot or lower limb pain and symptoms
- prevent or reduce the rate of cutaneous hypertrophy and/or soft tissue inflammation or other localised pathology
- ensure there is no new foot pain, symptoms or pathology created by the orthosis
- ensure the worker agrees to adjunctive therapies including footwear changes and prescribed exercises

Casts (Item coders 800049, 800050)

The objectives of this service are to:

- provide an accurate three (3) dimensional impression of the foot to manufacture a custom-made orthosis
- clearly mark or represent anatomical markers of the foot requiring pressure redistribution or accommodation
- ensure the worker understands the reason for prescription of the orthosis
- ensure the worker agrees to adjunctive therapies during footwear changes and prescribed exercises

Nail removal (Item code 800284)

The objectives of this service are to:

- relieve foot or lower limb pain and symptoms
- prevent or reduce the rate of cutaneous hypertrophy and/or soft tissue inflammation or other localised pathology
- ensure there is no new foot pain, symptoms or pathology created by the orthosis
- ensure the worker agrees to adjunctive therapies including footwear changes and prescribed exercises

Independent case review (Item code 800226)

An independent case review is only requested by the insurer. The payment for this service includes the assessment and report.

The purpose of an independent clinical assessment is to:

- assess and make recommendations about the appropriateness and necessity of current or proposed podiatry treatment
- propose a recommended course of podiatric management
- make recommendations for strategic planning to progress the case. Recommendations should relate to treatment goals and steps to achieve those goals, which will assist in a safe and durable return to work

- provide a professional opinion on the worker's prognosis where this is unclear from the current podiatry program
- provide an opinion and/or recommendation on the other criteria as determined by the insurer

Communication (Item codes 300079)

Used by **treating practitioners** for direct communication between a practitioner and any of the following: insurer, employer and/or treating medical or insurer appointed allied health provider to provide detailed information to facilitate faster, safer and more effective rehabilitation and return to work program for a specific worker. The communication should be **relevant** to the compensable injury and assist the insurer and other involved parties to resolve barriers and/or agree to strategies or intervention/s proposed. Communication includes phone calls, emails and facsimiles.

Each call, fax/email preparation must be more than three (3) minutes in duration to be billable and is to be billed in ten (10) minute increments. Note: most communication would be of short duration and would only exceed ten minutes in exceptional or unusual circumstances.

The insurer will not pay for:

- normal consultation communication that forms part of the usual best practice of ongoing treatment (when not of an administrative nature this should be billed under the appropriate treatment code)
- communication conveying non-specific information such as 'worker progressing well'
- communication made or received from the insurer as part of a quality review process
- General administrative communication, for example:
 - forwarding an attachment via email or fax e.g. forwarding a *Suitable duties plan* or report
 - leaving a message where the party phoned is unavailable
 - queries related to invoices
 - for approval/clarification of a Provider Management Plan or a Suitable Duties Plan by the insurer

Supporting documentation is required for all invoices that include communication. Invoices must include the reason for contact, names of involved parties and will only be paid once, regardless of the number of recipients of the call/email/fax. Line items on an invoice will be declined if the comments on the invoice indicate that the communication was for reasons that are specifically excluded.

If part of the conversation would be excluded, the practitioner can still invoice the insurer for the communication if the rest of the conversation is valid. The comments on the invoice should reflect the valid communication. Providing comments on an invoice that indicates that the communication was specifically excluded could lead to that line item being declined by the insurer.

Case Conference (Item code 300082)

The objectives of a case conference are to plan, implement, manage or review treatment options and/or rehabilitation plans and should result in an agreed direction for managing the worker's return to work.

The case conference must be authorised by the insurer prior to being provided and would typically be for a maximum of one hour (this excludes travelling to venue and return).

A case conference may be requested by:

- a treating medical practitioner
- the worker or their representative/s
- the insurer
- an employer
- an allied health provider

Reports (Item code 300086, 300088, 300090)

A report should be provided only following a request from the insurer or where the practitioner has spoken with the insurer and both parties agree that the worker's status should be documented. Generally, a report will not be required where the information has previously been provided to the insurer.

The practitioner should ensure:

- the report intent is clarified with the referrer
- reports address the specific questions posed by the insurer
- all reports relate to the worker's status for the compensable injury
- the report communicates the worker's progress or otherwise
- all reports are received by the insurer within ten (10) working days from when the practitioner received request

In general, reports delayed longer than three (3) weeks are of little use to the insurer and will not be paid for without prior approval from the insurer.

All reports include:

- worker's full name
- date of birth
- date of injury
- claim number
- diagnosis
- date first seen
- time period covered by the report
- referring medical practitioner
- contact details/signature and title of practitioner responsible for the report

Clinical reports

Insurers may request a progress clinical report, a standard clinical report or a comprehensive clinical report.

- **Progress report** – a brief summary of a worker's progress including RTW status, completion of goals, future recommendations and timeframes.
- **Standard report** – conveys relevant information relating to a worker's recovery and return to work where the case or treatment **are not** extremely complex. Includes functional and RTW status, treatment plan, interventions to date, any changes in prognosis along with the reasons for those changes, barriers, recommendations and goals and timeframes. Also includes responses to a limited number of questions raised by an insurer. A standard report would not be appropriate if further examination of the worker was required in order for the report to be completed.
- **Comprehensive report** – conveys all the information included in a standard report however would only be relevant where the case or treatment are **extremely complex** or the questions raised by the insurer are extensive. A standard report would be appropriate if further examination of the worker was required in order for the report to be completed for example a neuropsychological report or multi-trauma patient.

Travel – Treatment (Item code 300092)

Travel should only be charged when:

- it is appropriate to attend the worker somewhere other than the normal place of practice - for example:
 - to assist therapy* - where the practitioner does not have the facilities at their practice
 - to attend a case conference*
- a worker is unable to attend the practitioner's normal place of practice and they are treated at their home. In this case, the treating medical practitioner must certify the worker as unfit for travel
- the travel relates directly to service delivery for the worker's compensable injury

*Note: Please check procedures and conditions of service to determine if prior approval is required from the insurer. Approval is required for travel in excess of one (1) hour return trip. Prior approval is not required where the total travel time will exceed one (1) hour but the time can be apportioned (divided) between a number of workers for the same trip and equates to one (1) hour or less per worker.

Travel may not be charged when:

- travelling between one site or another if the practitioner's business consists of multiple practice sites
- the practitioner conducts regular sessional visits to particular hospitals, medical specialist rooms or other sessional rooms/facilities
- visiting multiple workers in the same workplace – the travel charge should be divided evenly between workers treated at that location
- visiting multiple worksites in the same journey – the travel charge should be divided accordingly between workers involved and itemised separately

Patient records (Item code 300093)

The fee is payable upon request from the insurer for copies of patient records relating to the workers compensation claim. If the copies of records are to exceed 50 pages the practitioner is required to seek approval from the insurer before finalising the request.

Incidental expenses (Item code 300094)

The values specified in this *table of costs* for incidental expenses and supportive devices are per claim and not per consultation. Contact the insurer for further clarification of what qualifies as an incidental expense.

For items exceeding the pre-approved values listed in this *table of costs* practitioners should discuss the request with the insurer. Approval must be obtained by contacting the insurer and submitting a *Request for incidental expenses, supportive devices* form available at www.worksafe.qld.gov.au. All items must be itemised on invoices.

Reasonable expenses

Items considered to be reasonable incidental expenses are those that the worker actually takes with them – including bandages, elastic stockings, tape, crutches, theraputty, theraband, grippers, hand weights, audio tapes/CD, education booklets, and disposable wound management kits (such as those containing scissors, gloves, dressings, etc.). Tape may only be charged where a significant quantity is used.

Items considered reasonable supportive device expenses – including splinting material, prefabricated splints, and braces – must be shown to be necessary items for successful treatment of the compensable injury.

The insurer will not pay for:

- items regarded as consumables used during the course of treatment – including towels, pillowcases, antiseptics, gels, tissues, disposable electrodes, bradflex tubing, and small non-slip matting
- items/procedures that are undertaken in the course of normally doing business – including autoclaving/sterilisation of equipment, and laundry

Hire/loan items

Prior approval must be obtained from the insurer for payments for hire or loan of items e.g. biofeedback monitors. The insurer will determine the reasonable cost and period for hire or loan and is not liable for the deposit, maintenance, repair or loss of the hire equipment.

Gym and pool entry fees (Item code 300228)

The insurer will not pay an entrance fee if the practitioner owns or operates the gymnasium or pool. Exceptions to this may be approved by the insurer where unusual circumstances apply.

Assistance

Contact the relevant insurer for claim related information such as:

- payment of invoices and account inquiries
- claim numbers/status
- rehabilitation status
- approval of Provider management plans

For a current list of insurers and for more information on the Table of Costs, visit www.worksafe.qld.gov.au or call 1300 362 128.
