

Diagnostic Imaging Services Table of Costs

How to use this document

This document outlines the fees payable by workers' compensation insurers for diagnostic imaging service delivery to workers' compensation claimants in Queensland.

When invoicing for medical services, medical practitioners are expected to adhere to the MBS rules, unless otherwise specified by WorkCover Queensland (WorkCover) in this publication or the insurers' medical policies. WorkCover adopts the Medicare Benefits Schedule (MBS) items, explanations, definitions, rules and conditions for services provided by medical practitioners.

Fees in this schedule are payable only to medical practitioners who meet the provider eligibility criteria outlined in the current MBS.

Service level standards

1. Services are to be provided in DIAS-accredited diagnostic imaging practices.
2. Appointments within 3 working days (unless it is clinically not appropriate or additional services/preparation is required) from receiving a valid request for a workers' compensation patient with an open claim
3. The report shall be comprehensive and will address all information requested by the referrer, required by the procedure and necessary for the interpretation of the results – see RANZCR Standards of Practice for Clinical Radiology, V11, 5.5.1 Interpretation and Reporting the Result.
4. The report shall be provided within 24 hours of the service, except in circumstances where additional radiology services or further clinical information is required
5. If the provider, using their clinical judgement, determines that further scans are required, prior approval will be sought from the insurer
6. Where the radiologist needs to clarify a referral, contact will be made with the referring practitioner.
7. Where the referring practitioner requires it, an electronic version of the report will be available.
8. Radiologists to submit invoices and a copy of the report through electronic channels, if available.
9. Only the provider of the service may render an invoice to the insurer.
10. Imaging examinations will be provided by radiologists who are registered as specialists in Diagnostic Radiology with AHPRA. 'Specialist MRI' services will be provided by radiologists who are registered with RANZCR as an MRI Radiologist and who participate in the MRI Quality and Accreditation Program which includes MRI specific CPD requirements – see RANZCR, Standards of Practice for Clinical Radiology, V11, 13.2.4 CPD – MRI Radiologist
