Who can provide dental services to workers?

All dental services performed must be provided by a dentist who has a current registration with the Australian Health Practitioner Regulation Agency (AHPRA).

Telehealth services

Telehealth services relate to video consultations only. Phone consultations are not covered under the current table of costs.

The following should be considered prior to delivering telehealth services:

- Providers must consider the appropriateness of this mode of service delivery for each worker on a case-by-case basis i.e. the principles and considerations of good clinical care continue to be essential in telehealth services.
- Providers are responsible for delivering telehealth services in accordance with the principles of professional conduct and the relevant professional and practice guidelines to ensure that all care is taken to ensure the privacy, confidentiality, safety, appropriateness, and effectiveness of the service.
- As with any consultation, it is important to provide sufficient information to enable workers to make informed decisions regarding their care.
- All telehealth services require prior approval from the insurer and must be consented to by all parties – the worker, provider, and insurer.

For invoicing purposes, telehealth services do not have specific item numbers and should be invoiced in line with the current item numbers and descriptors in the above table of costs.

The word 'Telehealth' must be noted in the comments section on any invoice submitted to the insurer when this service has been utilised.

Service conditions

Services provided to workers are subject to the following conditions:

- **Urgent and immediate treatment** – where the dental injury sustained by the worker requires urgent and immediate treatment, the dental practitioner does not need to obtain prior approval from the insurer. This treatment is limited to relieving acute dental pain and immediate symptoms - extractions, sedative dressings and suturing of oral soft tissue injuries.
- **Services not covered by this table of costs** – due to the diversity of dental services, there may be other dental items and expenses not covered in this document. The dental practitioner must negotiate these services with the insurer and receive written approval before commencing treatment.
- **Follow-up treatment** – if the item for follow-up dental treatment appears in this table of costs, the dental practitioner does not need prior approval from the insurer.

- **Workers' compensation certificate** – the worker must have a current workers' compensation certificate to cover any dental services provided. If the work-related injury or condition is dental or oral only, the dentist may issue a workers' compensation certificate to certify if the injury is work-related. If the work-related injury or condition is of a non-dental nature the certificate must be issued by a medical practitioner or nurse practitioner.

Reports (Item numbers 210002, 210005, 210008, 210011)

The following notes are designed to assist dental practitioners to prepare and submit reports which achieve the best outcomes for all concerned.

- Typed reports are best, including the written request for approval to conduct follow-up dental treatment. Reports should be as clear and as informative as possible. When insurers evaluate the report against the fee charged, they consider its usefulness for determining liability, assessing incapacity, or whether rehabilitation or other special services are needed to manage the claim.
- Delays in determining liability or the need for treatment or rehabilitation add considerably to the total costs of claims. As an incentive for early replies to requests for dental reports, a staged fee schedule based on time has been developed. The date the request was received will be the date from which the insurer will calculate the time taken to reply.
- The date of examination of the worker will be the date from which the insurer will calculate the time taken for reports associated with independent dental assessments (examination and report).
- In general, reports delayed longer than three (3) weeks are of little use to the insurer and will not be paid for without prior approval from the insurer.
- If an insurer requests an independent dental assessment (examination and report), they will always pay the fee for the examination. However, if the insurer does not receive the report within six (6) weeks of the examination, the insurer will not pay for the report unless they have given their prior approval.
- The insurer will only pay for non-requested reports at the base rate—provided they are satisfied the report is of value to them.
- Where the insurer requests a report from the treating dentist and subsequently rejects the claim, the insurer will pay the appropriate report fee to compensate for the clinical input necessary to provide the report.
- The 'expected length' is given as a **guide only**—this is not a measure of the report's value.

General guidance on payment for services

The insurer's objective under section 5 of the [Workers' Compensation and Rehabilitation Act 2003](#) (the Act) is to ensure that workers receive timely treatment and rehabilitation to assist with their return to work. This table of costs sets out the maximum fees payable by the insurer for the applicable services. This table of costs applies to all work-related injury or condition claims whether insured through WorkCover Queensland or a self-insured employer. The maximum fees in this schedule apply to services provided on or after 1 July 2021. The related injury or condition may have been sustained before, on or after this date.

The purpose of the services outlined in this table of costs is to enable injured workers to receive timely and quality medical and rehabilitation services to maximise the worker's independent functioning and to facilitate their return to work as soon as it is safe to do so. WorkCover Queensland or the self-insurer will periodically review a worker's treatment and services to ensure they remain reasonable having regard to the worker's injury or condition.

The insurer expects the fees for services to be reasonable and in line with this table of costs. Systems are in place to ensure compliance with invoicing and payment rules. Any non-compliant activities will be addressed with providers. Compliance actions may range from providing educational information to assist providers in understanding their [responsibilities](#) and the insurer's expectations, to criminal penalties for fraud. The insurer also reserves the right to refer misconduct to the relevant professional body, council, or complaints commission.

The worker's compensation claim must have been accepted by the insurer for the injury or condition being treated. If the application for compensation is pending or has been rejected, the responsibility for payment for any services provided is a matter between the provider and the worker (or the employer, where services have been requested by a Rehabilitation and Return to Work Coordinator).

All invoices should be sent to the relevant insurer for payment. Check whether the worker is employed by a self-insured employer or an employer insured by WorkCover Queensland.

Identify the appropriate item in the table of costs for services or treatment provided. The insurer will only consider payment for services or treatments for the work-related injury or condition, not other pre-existing conditions. Insurers will not pay for general communication such as receiving and reviewing referrals.

All hourly rates are to be charged at pro-rata where applicable e.g. for a 15-minute consultation/service charge one quarter ($\frac{1}{4}$) of the hourly rate. All invoices must include the time taken for the service as well as the fee.

Fees listed in the table of costs do not include GST. The provider is responsible for incorporating any applicable GST on taxable services/supplies into the invoice. Refer to a taxation advisor or the Australian Taxation Office for assistance if required.

Self-insurers require separate tax invoices for services to individual workers. WorkCover Queensland will accept invoicing for more than one worker on a single invoice.

Accounts for treatment must be sent to the insurer promptly, and within two (2) months after the treatment is completed.

To ensure payment, the invoice must contain the following information:

- the words 'Tax Invoice' stated prominently
- practice details and Australian Business Number (ABN)
- invoice date
- worker's name, residential address, and date of birth
- worker's claim number (if known)
- worker's employer name and place of business
- referring medical practitioner's or nurse practitioner's name
- date of each service
- item number/s and treatment fee
- a brief description of each service delivered, including areas treated
- the name of the provider who provided the service.
